SECTION 3 - INDIVIDUAL, PARTY AND PRIVATE BRANCH EXCHANGE SERVICE

J1. Enhanced Custom Calling Services (Cont'd)

2. Description (Cont'd)

d. Call ID (Cont'd)

If the customer's line is busy, and another incoming call attempt is made, the telephone number of that calling party will not be disclosed even if the called number has Call Waiting. The customer has the option of turning off the display device to suspend the display of incoming calling numbers.

Callers placing calls to customers subscribing to Call ID have the ability to prevent their telephone numbers from being disclosed to the called party on a per call basis by utilizing Per Call Restrict (See J1.2.E following). The prevention of the disclosure of their telephone numbers is accomplished by dialing a special code before dialing the telephone number. The special code must be dialed prior to every call made in which the calling party does not want the telephone number disclosed. If the called party has a display device, a privacy indication will appear instead of the calling party's telephone number.

Callers placing calls to customers subscribing to Call ID may also prevent the disclosure of their telephone numbers on a per line basis by subscribing to All Call Restrict (See J1.2.F. following). This service will prevent the display of the calling party's number on all calls originating on that line. A privacy indication will appear on the display unit instead of the calling party's telephone number on all calls.

Caller ID should be used for incoming call management purposes only and should not be relied upon for any other purposes such as determining the originating location of a call or determining the definitive identity of a caller. ALLTEL New York, Inc. shall not be responsible for and makes no representation with respect to the content of information received or transmitted for any purpose other than call management.

Any customer subscribing to Call ID will be responsible for the provision of a display device, which will be located on the customer's premise. The installation, repair and technical capability of that equipment to perform in conjunction with the feature specified will be the responsibility of the customer. The Company assumes no liability or responsibility with respect to the compatibility of customer's equipment, its performance, or its ability to provide the service.

e. Per Call Restrict

Per Call Restrict enables customers to prevent the disclosure of their telephone number on a per call basis to the called party. The transmission of the Directory Number and/or Directory Name to subscribers of Enhanced Custom Calling Services features as described in this Tariff can be temporarily prevented on an as needed basis by dialing a preassigned access code prior to making a call.

This action must be repeated each time a call is made to prevent the disclosure of the calling party's telephone number. If the called party has a display device, a privacy indication will appear instead of the calling party's telephone number.
